ABOUT FALCOR

A brief introduction to our company

FALCOR Engineering & Contracting Services is composed of a team of professionals from every field related to the oil & gas industry.

Falcor is a Family owned and managed company established initially in Abu Dhabi, United Arab Emirates in 1979, as a trading house to serve the local Oil & Gas industry.

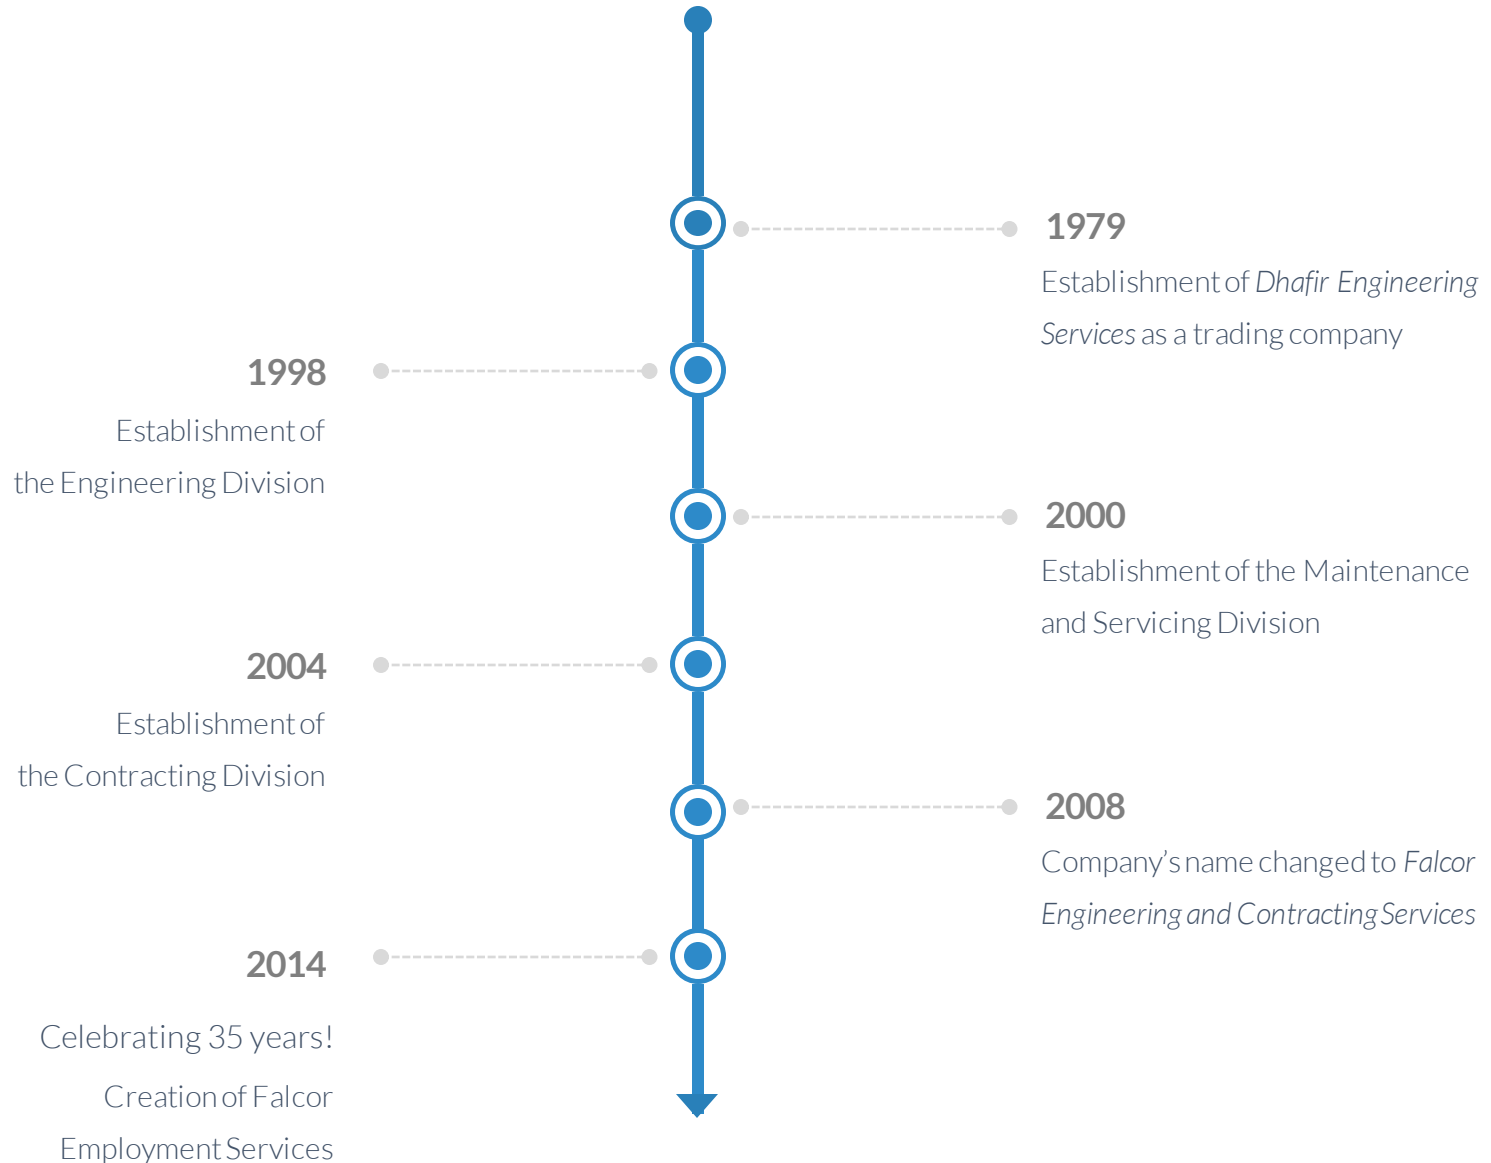

As an organization committed to its customers by being a one stop shop service company for its Oil & Gas, Power and Utilities clients we offer our services in the following areas:

- Material Supply and Company Representation
- Engineering , Procurement and Contracting
- Maintenance & Services
- Manpower

We are a proactive team of 150 professionals made of technical and sales staff who come with a wealth of knowledge in particular in the Oil and Gas industry.

Company Timeline

PHILOSOPHY AND COMMITMENT

Values we have built our company on

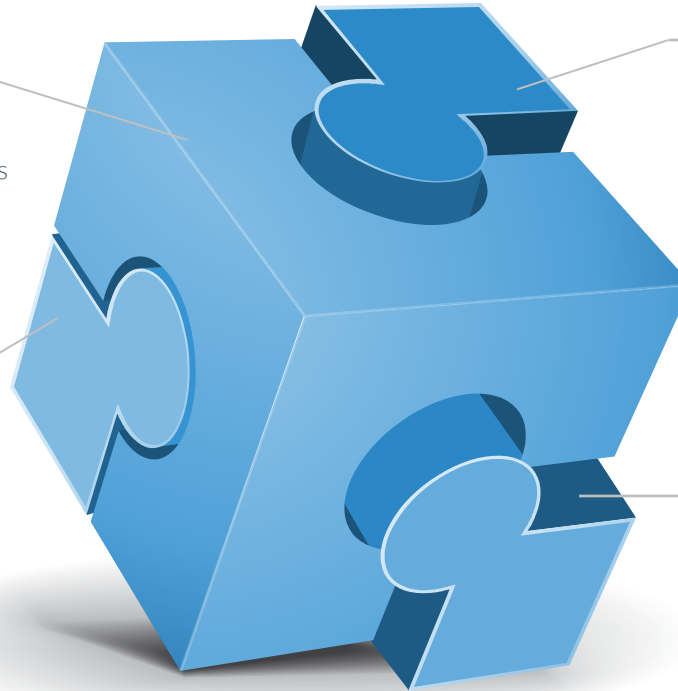

Customer Service

Thanks to our creditable manufacturers worldwide, we are able to supply high quality products and services that satisfy our customer requirements

Continuous Development

Our aim is to provide continuous technological progression to ensure improvement in service delivery for the benefit of our customers

Quality Assurance

FALCOR is ISO accredited (ISO 9001, 14001 and OHSAS18001). These endorsements are our benchmark of assurances that our "customers are supplied with the highest quality of products and services".

Health, Safety and Environment

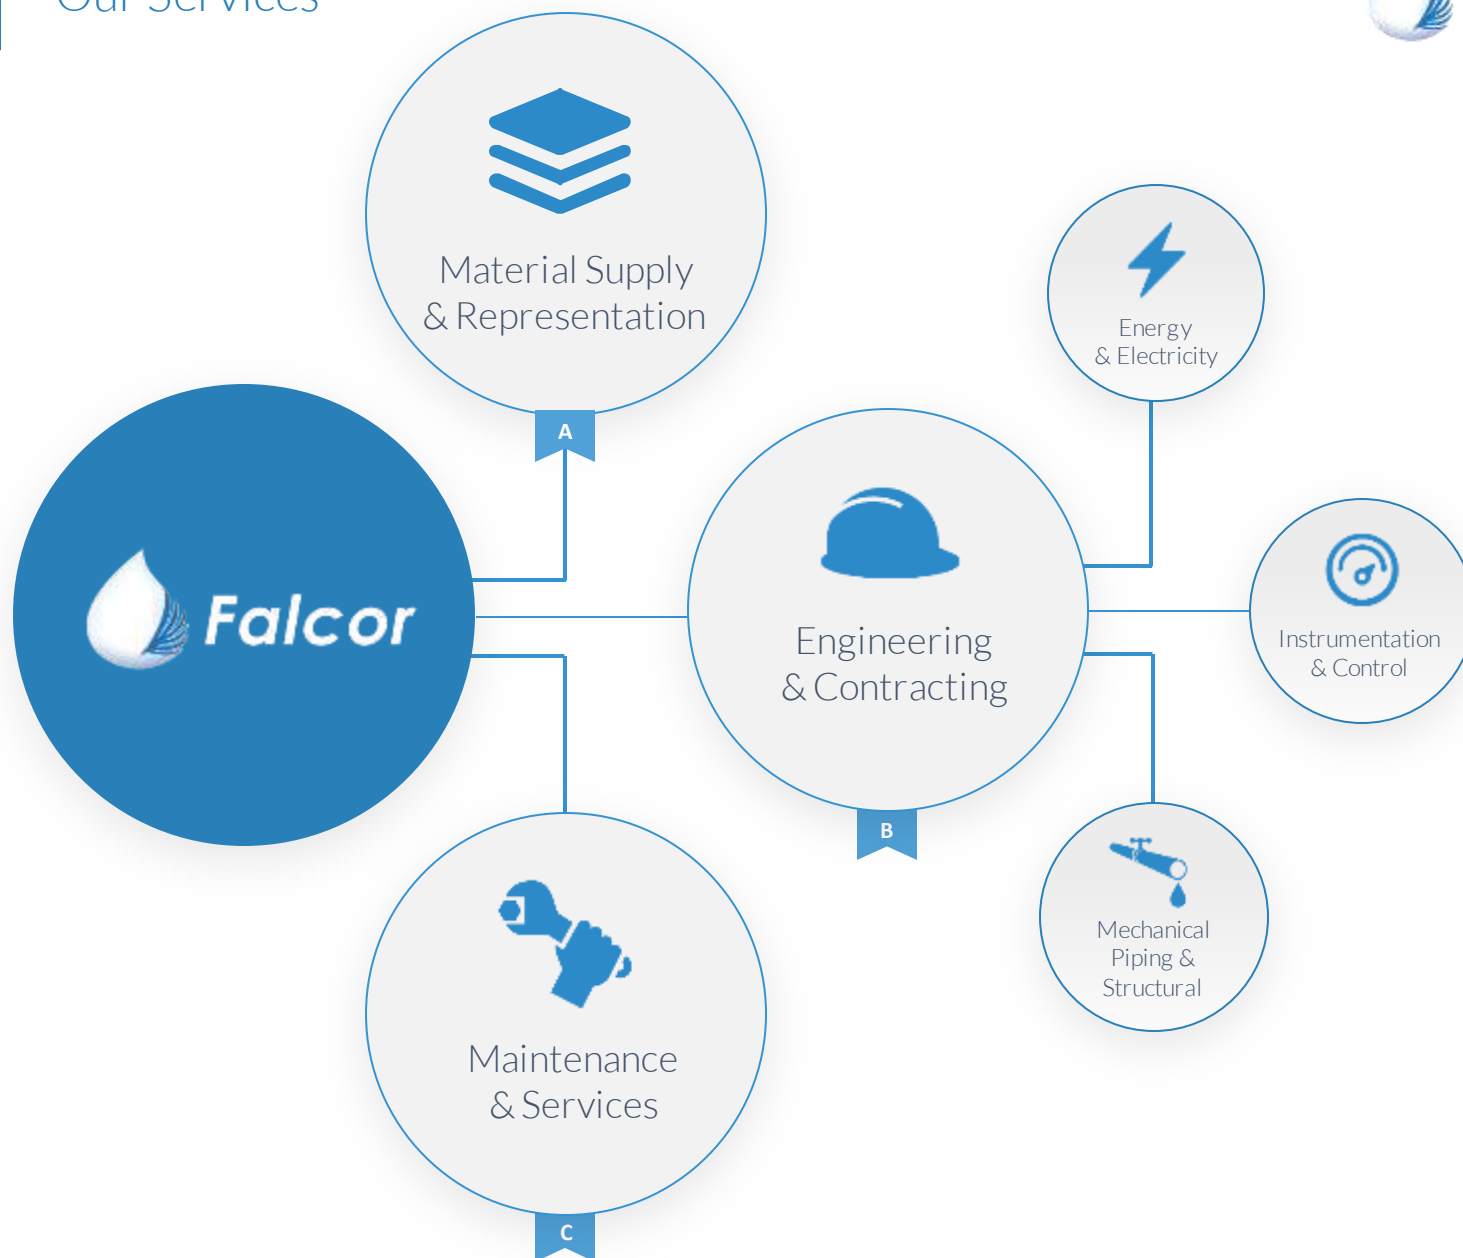

It is the policy of FALCOR to conduct all its activities in such a way as to promote high standards of health consciousness, to ensure its employees are consistently safety aware and to preserve and uphold the ethical stature of the environment.
